On Learning And Change:

On Learning and Change; from the Editors of Change ,1977 *On learning and change* ,1973 School Didactics And Learning Michael Uljens,2004-08-02 This text presents a reflective theory of school didactics incorporating German and Nordic research traditions in the theory of didactics together with Anglo American research on teaching instructional research and cognitivist theory Transforming Learning Sue Askew,1998-06-01 This study promotes a model of education which is collaborative and non hierarchical While traditional approaches to learning and teaching stress cognitive aspects of development and learning this text advocates an approach which synthesizes the cognitive affective and social dimensions of learning Revealing personal and social learning as being involved with the whole school experience the authors support the nature of learning within this radical model and highlight key social values such as equality respect and justice **Learning to Change** E. Sheila Harri-Augstein,Ian M. Webb,1995-01-01 This step by step guide shows how trainers may use Self Organised Learning SOL to achieve real and lasting change within an organization at all levels It provides exercises designed to develop a theoretical and practical insight into the processes of learning and self development *Handbook of Research on Applied Learning Theory and Design in Modern Education* Railean, Elena,2015-11-09 The field of education is in constant flux as new theories and practices emerge to engage students and improve the learning experience Research advances help to make these improvements happen and are essential to the continued improvement of education The Handbook of Research on Applied Learning Theory and Design in Modern Education provides international perspectives from education professors and researchers cyberneticists psychologists and instructional designers on the processes and mechanisms of the global learning environment Highlighting a compendium of trends strategies methodologies technologies and models of applied learning theory and design this publication is well suited to meet the research and practical needs of academics researchers teachers and graduate students as well as curriculum and instructional design professionals Methodological challenges in research on student learning Vincent Donche,Sven De Maeyer,Davd Gijbels,Huub van den Bergh,2015-06-15 Research on student learning has undergone many changes in the last decade In particular the research methodology has advanced in many different ways on the level of complexity of data collection and rigor of data analyses In the quantitative research perspective many off line and online measures and statistical analysis techniques have been further meticulously developed In the qualitative research perspective a broader range of data collection tools are applied Also the use of mixed method data analysis is increasing Although in some research strands on student learning the mono method approach of quantitative research is still the golden rule in other research strands we notify more methodological creativity in mixing research paradigms and designs which can be very fruitful advancements for further knowledge development In this book we focus on the domain of research on learning patterns in which these methodological shifts are in rapid evolution A variety of international research cases illustrating current practices of empirical research is presented showing how different methods

of research on student learning can be applied and be useful for future research Benefits an boundaries of the research methods are critically discussed and future perspectives are proposed
