On Pointe:

Fields in Motion Dena Davida, 2011-10-01 *Fields in Motion* Ethnography in the Worlds of Dance examines the deeper meanings and resonances of artistic dance in contemporary culture. The book comprises four sections: methods and methodologies, autoethnography, pedagogies and creative processes, and choreographies as cultural and spiritual representations. The contributors bring an insiders insight to their accounts of the nature and function of these artistic practices, giving voice to dancers, dance teachers, creators, programmers, spectators, students, and scholars. International and intergenerational, this collection of groundbreaking scholarly research points to a new direction for both dance studies and dance anthropology. Traditionally the exclusive domain of aesthetic philosophers, the art of dance is here reframed as cultural practice and its significance is revealed through a chorus of voices from practitioners and insider ethnographers. *Getting Started in Ballet* Anna Paskevskaja, 2016 In *Getting Started in Ballet: A Parent's Guide to Dance Education* authors Anna Paskevskaja and Maureen Janson comprehensively present the realities that parents can anticipate during their child's training and/or career in ballet. It can be daunting and confusing when parents discover their child's desire to dance. Parental guidance and education about dance study typically comes from trial by fire. This book expertly guides the parental decision-making process by weaving practical advice together with useful information about dance history and the author's own memoir. From selecting a teacher in the early stages to supporting a child through his or her choice to dance professionally, parents of prospective dancers are led through a series of considerations and encouraged to think carefully and to make wise decisions. Written primarily as a guide book for parents, it is just as useful for teachers and this exemplary document would do well to have a place on the bookshelf in every dance studio waiting room. Not only can dance parents learn from this informative text, but dance teachers can be nudged toward a greater understanding and anticipation of parents' needs and questions. *Getting Started in Ballet* fills a gap conveniently under one cover, welcoming parents to regard every aspect of their child's possible future in dance. Without this book, there would be little documentation of the parenting aspect of dance. Dance is unlike any other training or field, and knowing how to guide a young dancer can make or break them as a dancer or dance lover. **Getting Started in Ballet: A Parent's Guide to Dance Education** Anna Paskevskaja, Chair of the Dance Department, Chicago Academy for the Arts, 1997-10-20 Many children dream of being a ballerina. Chin raised with purpose, arms high above head, they twirl clumsily around the living room and leap tirelessly in the air. Sooner or later they're bound to say, "I want to dance. Now what do you do? How do you know if the time is right? Where's the best place to start?" In *Getting Started in Ballet*, Anna Paskevskaja draws from her training at the Paris Opera Ballet School and the Royal Ballet School in London and her career as a professional dancer and teacher to offer a step-by-step introduction to dance education for parents with children starting ballet. Paskevskaja begins with a historical overview of dance and discusses the fundamental virtues and many life-long skills it imparts. Dance teaches children how to cooperate and support each other's efforts.

encourages them to work in harmony with others helps establish a child's spatial relationships and promotes discipline and responsibility Paskevka outlines the proper sequence for training in ballet based on a child's physical and mental development She clearly demonstrates how ballet's early training focusing on repetition of simple motion such as exercises at the barre and basic jumps establish pathways for all later movements not only in ballet but in modern dance jazz and tap as well Written in a clear and accessible style and full of anecdotes from Paskevka's long professional dance related career Getting Started in Ballet offers helpful information on types of dance schools and how to select the right school for your child Included is valuable information on choosing a dance instructor the role both parents and teachers should play in a child's learning experience and the qualities the ideal teacher should possess Also discussed are more practical matters such as the appropriate clothing to wear while practicing the importance of shoes that fit properly how to secure pointe shoes tips for avoiding injury and how to balance training and performing experience during the formative years A special chapter covers proper diet eating disorders and ways to recognize symptoms of imbalance Finally Paskevka touches upon the professional world of dance attending college as a dance major and advice on choosing careers that benefit from a background in dance With forewords by Violette Verdy a preeminent ballerina affiliated with the New York City Ballet and the Paris Opera Ballet and Sybil Shearer a pioneer of American modern dance as well as an extensive appendix of performing arts schools and dance programs throughout the United States Getting Started in Ballet gives parents the advice they need to make their child's dance experiences both enjoyable and constructive
