Merlin Library Edition:

Routledge Library Editions: Gramsci Various Authors,2022-07-30 In the years since the publication of the Prison Notebooks the interest and importance of Antonio Gramsci's contribution to Marxist thought and political analysis has become widely recognised The concern to explore and identify the structures of the capitalist state is both the principal characteristic of Gramsci's theoretical and political writings and also the inspiration for his writings on Italian history This set re issues four volumes by leading commentators on Gramsci's politics and philosophy which were originally published between 1979 and 1981

Routledge Library Editions: Historiography Various,2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect

Routledge Library Editions: Spiritualism Various,2022-07-30 The volumes in this set originally published between 1974 and 1992 draw together research by leading academics in spiritualism and provide a rigorous examination of related key issues The collection examines spirituality from a broad range of disciplines from the spirituality in the Christian church spirituality in Africa and Afro American religions as well as examining the areas of channeling mediumship and spirit possession In this 3 volume set there are two incredibly unique and insightful bibliographic source collections examining both primary and secondary source listings across the subject of spiritualism and one volume providing field research into spirituality in the Christian church and in the occult This collection is an incredibly useful tool for researchers examining the broad area of spiritualism and will be of interest to researchers academics and students of anthropology religion and sociology

Routledge Library Editions: Alchemy Various Authors,2021-03-05 Reissuing seminal works originally published between 1916 and 1995 Routledge Library Editions Alchemy 7 volume set offers a selection of scholarship covering various facets of alchemical traditions Some texts examine alchemy itself while some offer insight into the motives for alchemical research and others outlay portraits of people such as Giordano Bruno and John Dee

Routledge Library Editions: Continental Philosophy Various,2021-06-23 This 11 volume set reissues a host of classic titles on Continental Philosophy Written by leading scholars in the field they form an essential reference resource that tackles philosophers and subjects such as Deleuze Derrida hermeneutics and phenomenology
