Next Generation Architecture Folds Blobs And Boxes:

Next Generation Architecture Joseph Rosa, 2003 Defines the next generation of architects and captures the latest trends in architecture
Approaches to Drawing in Architectural and Urban Design Fabio Colonnese, Nuno Grancho, Robin Schaeferbeke, 2024-04-04 Architects draw for a variety of purposes they draw to assimilate places and precedents to generate ideas to develop a concept into a consistent project in a team to communicate ideas and solutions to patrons and clients and to guide building contractors during the construction stages as well as to produce further elaborations in order to publish their project in a treatise a journal or their own portfolio Most importantly architects draw to think and to manage complexity in a visual way By taking into account innovative and interdisciplinary uses of architectural drawing in the design process both historical and current the collection of chapters and interviews in this book frames a new critical perspective and a uniquely contextual appreciation of drawing as a way to encourage spatial thinking and practice in architecture and urbanism The authors take the discussion to a new level of philosophical sophistication while also considering drawing in relation to a series of specific engagements with urban development planning and architecture

Jakob and MacFarlane Daniel Pavlovits, 2006 The work of Paris based architects Jakob MacFarlane can best be described as the capture and articulation of movement both ethereal and real The firm's focus on movement seeks to mobilise vectors of force to infuse a dynamic sensibility in its work evident in well known projects such as Restaurant Georges at the Pompidou Centre and the Florence Loewy Bookshop both in Paris The firm's sophisticated design schemes are the result of high end digital computer technology used in its design process Jakob MacFarlane's work has been published and exhibited widely and it has been proclaimed as a highly promising collaborative representing the best in French architecture and architectural sensibility of the twenty first century This book explores a variety of Jakob MacFarlane's projects to date both built and unbuilt allowing the reader an insight into the workings of a burgeoning practice
