goals 1 to collect together for the first time the work of professional academic philosophers who have had the mixed race experience and 2 to bring these essays together for the purpose of adding to the conversation on the question of the degree to which factual identity and philosophical work may be related The book also examines the possible relationship between the mixed race experience and certain philosophical positions [The Philosopher](#) ,1927 Includes section Book reviews

introducing and discussing methods in the philosophy of science the collection increases philosophers awareness of methodological options of particular importance for younger scholars who are often not exposed to the diversity of practice Second the collection s practical focus will aid established philosophers in diversifying their own methodological toolkits Third collecting this diversity serves as a ground for philosophical reflection on what we as philosophers take ourselves to be capable of Fourth the collection hopes to increase interdisciplinary links between philosophy and other fields by laying clear the methodological continuity and complement between them
