**Generation Multiplex** Timothy Shary,2002-11 Generation Multiplex represents an important contribution to our understanding of the relationship between youth and the mass media in this case movies From both a personal and a professional perspective I welcome this work which builds on themes and issues I addressed in *The Cinema of Adolescence* in 1985 from the Foreword When teenagers began hanging out at the mall in the early 1980s the movies followed Multiplex theaters offered teens a wide array of perspectives on the coming of age experience as well as an escape into the alternative worlds of science fiction and horror Youth films remained a popular and profitable genre through the 1990s offering teens a place to reflect on their evolving

identities from adolescence to adulthood while simultaneously shaping and maintaining those identities Drawing examples from hundreds of popular and lesser known youth themed films Timothy Shary here offers a comprehensive examination of the representation of teenagers in American cinema in the 1980s and 1990s He focuses on five subgenres school delinquency horror science and romance sexuality to explore how they represent teens and their concerns how these representations change over time and how youth movies both mirror and shape societal expectations and fears about teen identities and roles He concludes that while some teen films continue to exploit various notions of youth sexuality and violence most teen films of the past generation have shown an increasing diversity of adolescent experiences and have been sympathetic to the particular challenges that teens face
