The Pro-European Reader Dick Leonard, 2001-11-19 This text is a guide to the case for Europe marshalling the most persuasive arguments in favour of closer European integration and a full and whole hearted British participation in the European Union It moves beyond politics with writers such as Milan Kundera and David Puttnam

New Europe Donald McNeill, 2014-05-12 *New Europe Imagined Spaces* traces the radical transformation of European places and spaces over the last two decades Instead of the familiar schoolbook map of a Europe of nation states the book unpacks the differing imaginations of European identity in recent years Taking as its central problem the fluid nature of cultural and political identity it moves firmly away from and calls into question the perspective of the nation state as the primary source of imagined identity for Europeans The book contributes to key debates such as the emerging Europe of the Regions and the return of the city state examines the rebranding of the nation state and explores the impact of Europeanisation on existing place identity Emphasising mobility and movement the chapters explore borderlands and travel and also include a detailed discussion of the everyday life of Europeans Throughout iconic images of contemporary Europe are invoked Eurodisney the Reichstag Barcelona s Ramblas and the Bilbao Guggenheim and the way in which mundane artefacts and practices such as football walking cars food passports and the Euro help construct identity is considered *New Europe Imagined Spaces* adopts a multidisciplinary approach to studying Europe providing students with an exploration of contemporary European space and place identity

The European Union Elizabeth Bomberg, John Peterson, Richard Corbett, 2012 *The European Union How Does It Work* is a perfect introduction to the European Union providing concise accessible coverage of the main actors policies and developments in the EU An expert team of leading scholars and practitioners cuts through the complexity to explain how the EU works in theory and practice The book equips readers with the knowledge and skills required to master the subject Helpful learning features throughout the text help to develop readers understanding of the EU How it really works boxes demonstrate the working of the EU in practice and challenge readers to contrast this with theoretical perspectives Key terms and concepts boxes provide concise definitions or summaries of words and ideas that are essential to understanding the EU And each chapter contains Spotlight boxes exploring specific cases that highlight how the EU works what it does or how it has evolved Taken together these features encourage readers to think critically about the reality of politics in the EU This edition explores ongoing challenges to the EU including the COVID 19 pandemic the UK s withdrawal from the EU and the erosion of democratic standards in some EU member states

British Foreign Policy, National Identity, and Neoclassical Realism Amelia Hadfield-Amkhan, 2010-10-16 This groundbreaking study offers a genuinely multidisciplinary exploration of cultural influences on foreign policy Through an innovative blend of historical analysis neoclassical realist theory and cultural studies Amelia Hadfield Amkhan shows how national identity has been a catalyst for British foreign policy decisions helping the state to both define and defend itself Representing key points

of crisis from the past two centuries her case studies include the 1882 attempt to construct a channel tunnel to France the frantic 1909 Dreadnought race with Germany the 1982 Falklands War with Argentina and the 2003 decision to remain outside the Eurozone The author argues that these events marking the decline of a great power have forced Britain's society and government into periods of deep self reflection that are carved into its culture and etched into its policy stances on central issues of sovereignty territorial integrity international recognition and even monetary policy **Fabian Review**, 2002 **Reader's Guide to Periodical Literature Supplement**, 1916 These vols contain the same material as the early vols of Social sciences humanities index *National Identity and Europe in Times of Crisis* Christian Karner, Monika Kopytowska, 2017-08-29 Europeanness is challenged by the multiple crises and debates happening across the continent There is long standing disagreement over Europe's boundaries and politicians and citizens continually reflect on the EU's past present and future This book analyses such reflections and political struggles in a variety of national and local contexts
