Lewis,1982 Computer-Based Learning Environments and Problem Solving Erik De Corte,Marcia C. Linn,Heinz Mandl,Lieven Verschaffel,2013-06-29 Most would agree that the acquisition of problem solving ability is a primary goal of education The emergence of the new information technologies in the last ten years has raised high expectations with respect to the possibilities of the computer as an instructional tool for enhancing students problem solving skills This volume is the first to assemble review and discuss the theoretical methodological and developmental knowledge relating to this topical issue in a multidisciplinary confrontation of highly recommended experts in cognitive science computer science educational technology and instructional psychology Contributors describe the most recent results and the most advanced methodological approaches relating to the application of the computer for encouraging knowledge construction stimulating higher order thinking and problem solving and creating powerful learning environments for pursuing those objectives The computer applications relate to a variety of content domains and age levels **The Politics of Mathematics Education** Stieg Mellin-Olsen,2006-04-11 The development of knowledge is never easy One doesn't want to go over old ground again but yet one needs to establish the new in the context of the old One is also anxious about the novelty of the ideas are they new enough or are they too way out to be acceptable In some fields perhaps these criteria are less important than in others In education I sense that novelty is a tricky criterion varying in value from society to society In some societies the new ideas have to justify their adoption in the face of the old tried and tested ideas Better the devil you know than the devil you don't In other societies the old ways have to justify their continuation in the face of the new promising and exciting ideas I can't find a good proverb for this Perhaps proverbs are all about preserving the past In any case some people will argue there is nothing new to be said about education anyway the problems are the same and it is only the context which changes Mellin Olsen develops the reader's knowledge through this book in ways that are both novel and challenging Their novelty is not in question judging by reactions to them which vary from they have nothing to do with mathematics education to they concern everything that is done in mathematics education Journal of the Institution of Electronics and Telecommunication Engineers Institution of Electronics and Telecommunication Engineers (India),1983 *The Reader's Guide to Microcomputer Books* Michael Nicita,Ronald Petruscha,1984 **The Publishers' Trade List Annual** ,1992 *Computer Books and Serials in Print* ,1985 Physical Methods of Chemistry: Components of scientific instruments and applications of computers to chemical research Bryant W.
