Metropolitan Problems Tōkyō Shisei Chōsakai,1992 **Urban Development Challenges, Risks and Resilience in Asian Mega Cities** R.B. Singh,2014-10-16 In this book an interdisciplinary research group of faculty members researchers professionals and planners contributed to an understanding of the dynamics and dimensions of emerging challenges and risks in megacities in the rapidly changing urban environments in Asia and examined emerging resilience themes from the point of view of sustainability and public policy The world s urban population in 2009 was approximately 3 4 billion and Asia s urban population was about 1 72 billion Between 2010 and 2020 411 million people will be added to Asian cities 60 % of the growth in the world s urban population By 2020 of the world s urban population of 4 2 billion approximately 2 2 billion will be in Asia China and India will contribute 31 3 % of the total world urban population by 2025 Developing Asia s projected global share of CO2 emissions for energy consumption will increase from 30 % in 2006 to 43 % by 2030 City regions serve as magnets for people enterprise and culture but with urbanisation the worst form of visible poverty becomes prominent The Asian region with a slum population of an estimated 505 5 million people remains host to over half of the world s slum population The book provides information on a comprehensive range of environmental threats faced by the inhabitants of megacities It also offers a wide and multidisciplinary group of case studies from rapidly growing megacities with populations of more than 5 million from developed and developing countries of Asia **Scaling Urban Environmental Challenges** Peter J Marcotullio,Gordon McGranahan,2012-06-25 Think globally act locally emphasizes the importance of scale in dealing with environmental challenges but not how to factor it in This major new book focuses on the spatial dimensions of urban environmental burdens showing how important it is to take these into account when pursuing environmental justice and good governance whether in the context of the sanitary risks of slum living the pollution of uncontrolled industrialization and motorization or the enormous ecological footprints of affluent urban lifestyles Written by leading experts in the fields of urban development and environmental planning the book reviews the urban environmental shifts that have shaped today s challenges and examines conditions and problems in the urban centres of low middle and high income countries Case studies address such economically diverse cities as Accra New Delhi Mexico City and Manchester while thematic chapters explore issues including water sanitation and transportation The book concludes by exploring and analysing different scales of governance The editors argue that we should not rely solely on local governance to address local burdens like poor sanitation nor depend only on global governance for global challenges such as greenhouse gas emissions but that scale is crucial in both understanding the problems and devising successful responses Published with UNU IAS and IIED *Chōngch' aek nonch'ong* ,1995 **Challenges of the Changing Economy of New York City** ,1988 **The American City** Arthur Hastings Grant,Harold S.
