Michaelis Baii Opera:

Michaelis Baii ... Opera ... Collecta, expurgata, & plurimis ... opusculis aucta: studio A. P. Theologi [i.e. Gabriel Gerberon]. [A facsimile of the original edition published in Cologne, 1696.] Michael BAIUS, Gabriel Gerberon, A. P. (Theologus.), 1964 **The Irenical Theology of Théophile Brachet de La Milletière (1588-1665)** R.J.M. van de Schoor, 2022-06-20 In this study the content and background of La Milletière's irenism are analysed and compared to the irenism of Hugo Grotius who strove for unity in this same period The reactions which La Milletière's books and pamphlets provoked are related to the rival groups within each confession Jansenists versus Jesuits the scholars of Saumur versus orthodox theologians like Rivet and Du Moulin and the ministers of Charenton Richelieu's conciliatory religious policy was experienced by the oppressed French Calvinists as a major threat to the integrity of their doctrine When one of their co-religionists La Milletière began to propagate a reunification of Protestants and Roman Catholics they did not fail to recognize these irenic proposals as Richelieu's On the other hand the Roman Catholics mistrusted this peacemaker as well This book therefore offers a contribution to the history of irenism as well as an analysis of the religious situation in France in the first half of the seventeenth century **Michaelis Baii ... opera ...**, 1696 **The Covenant of Works** J. V. Fesko, 2020-09-14 The doctrine of the covenant of works arose to prominence in the late sixteenth century and quickly became a regular feature in Reformed thought Theologians believed that when God first created man he made a covenant with him all Adam had to do was obey God's command to not eat from the tree of knowledge and obey God's command to be fruitful multiply and subdue the earth The reward for Adam's obedience was profound eternal life for him and his offspring The consequences of his disobedience were dire God would visit death upon Adam and his descendants In the covenant of works Adam was not merely an individual but served as a public person the federal head of the human race The Covenant of Works explores the origins of the doctrine of God's covenant with Adam and traces it back to the inter-testamental period through the patristic and middle ages and to the Reformation The doctrine has an ancient pedigree and was not solely advocated by Reformed theologians The book traces the doctrine's development in the seventeenth century and its reception in the eighteenth nineteenth and twentieth centuries Fesko explores the reasons why the doctrine came to be rejected by some even in the Reformed tradition arguing that interpretive methods influenced by Enlightenment thought caused theologians to question the doctrine's scriptural legitimacy *The British Library General Catalogue of Printed Books to 1975* British Library, Jim Emmett, 1979 God and Man L.
