line between show business and sport *A Story of South Africa* Susan V. Gallagher,1991 With the publication of *Age of Iron* winner of Britain's richest fiction prize the Sunday Express Book of the Year for 1990 J M Coetzee is now recognized as one of the foremost writers of our day In this timely study of Coetzee's fiction Susan Gallagher places his work in the context of South African history and politics Her close historical readings of Coetzee's six major novels explore how he lays bare the dense complicity between thought and language in South Africa Following a penetrating description of the unique difficulties facing writers under apartheid Gallagher recounts how history language and authority have been used to marginalize the majority of South Africa's people Her story reaches from the beginnings of Afrikaner nationalism to the recent past the Sharpeville massacre the jailing of Nelson Mandela and the Soweto uprising As a result of his rejection of liberal and socialist realism Coetzee has been branded an escapist but Gallagher ably defends him from this charge Her cogent convincingly argued examination of his novels demonstrates that Coetzee's fictional response is apocalyptic in the most profound Biblical sense obscurely pointing toward ineffable realities transcending discursive definition Viewing Coetzee's fiction in this context Gallagher describes a new kind of novel that arises out of history but also rivals history This analysis reveals Coetzee's novels to be profound responses to their time and place as well as richly rewarding investigations of the storyteller's art

Nineteenth Century Perspectives on Private International Law Roxana Banu,2018-07-19 Private International Law is often criticized for failing to curb private power in the transnational realm The field appears disinterested or powerless in addressing global economic and social inequality Scholars have frequently blamed this failure on the separation between private and public international law at the end of the nineteenth century and on private international law's increasing alignment with private law Through a contextual historical analysis Roxana Banu questions these premises By reviewing a broad range of scholarship from six jurisdictions the United States France Germany the United Kingdom Italy and the Netherlands she shows that far from injecting an impetus for social justice the alignment between private and public international law introduced much of private international law's formalism and neutrality She also uncovers various nineteenth century private law theories that portrayed a social relationally constituted image of the transnational agent thus contesting both individualistic and state centric premises for regulating cross border inter personal relations Overall this study argues that the inherited shortcomings of contemporary private international law stem more from the incorporation of nineteenth century theories of sovereignty and state rights than from theoretical premises of private law In turn by reconsidering the relational premises of the nineteenth century private law perspectives discussed in this book Banu contends that private international law could take centre stage in efforts to increase social and economic equality by fostering individual agency and social responsibility in the transnational realm *Titan Sinking: The decline of the WWF in 1995* James Dixon,Jim Cornette,Benjamin Richardson,2014-08-31 Throughout the history of the WWF there have been times of prosperity and times of hardship cycles that shape the ethos of the company by forcing changes to its infrastructure and
