Sam Doyle:

African Voices in the African American Heritage Betty M. Kuyk, 2003 The survival of African belief systems and social structures in contemporary African American culture

We Are Made of Stories Leslie Umberger, 2022-10-04 A richly illustrated history of self-taught artists and how they changed American art. Artists without formal training who learned from family, community, and personal journeys have long been a presence in American art. But it wasn't until the 1980s with the help of trailblazing advocates that the collective force of their creative vision and bold self-definition permanently changed the mainstream art world. In *We Are Made of Stories*, Leslie Umberger traces the rise of self-taught artists in the twentieth century and examines how, despite wide-ranging societal, racial, and gender-based obstacles, they redefined who could be rightfully seen as an artist and revealed a much more diverse community of American makers. Lavishly illustrated throughout, *We Are Made of Stories* features more than one hundred drawings, paintings, and sculptures ranging from the narrative to the abstract by forty-three artists including James Castle, Thornton Dial, William Edmondson, Howard Finster, Bessie Harvey, Dan Miller, Sister Gertrude Morgan, the Philadelphia Wireman, Nellie Mae Rowe, Judith Scott, and Bill Traylor. The book centralizes the personal stories behind the art and explores enduring themes including self-definition, cultural heritage, struggle, and joy and inequity and achievement. At the same time, it offers a sweeping history of self-taught artists, the critical debates surrounding their art, and how museums have gradually diversified their collections across lines of race, gender, class, and ability. Recasting American art history to embrace artists who have been excluded for too long, *We Are Made of Stories* vividly captures the power of art to show us the world through the eyes of another. Published in association with the Smithsonian American Art Museum Exhibition Schedule, Smithsonian American Art Museum, Washington, DC, July 1, 2022, March 26, 2023.

Local Heroes Lynne E. Spriggs, 2000

Souls Grown Deep: The tree gave the dove a leaf Paul Arnett, William Arnett, 2000 The first comprehensive overview of an important genre of American art. *Souls Grown Deep* explores the visual arts genius of the Black South. This first work in a multivolume study introduces 40 African American self-taught artists who, without significant formal training, often employ the most unpretentious and unlikely materials. Like blues and jazz artists, they create powerful statements amplifying the call for freedom and vision.

American Folk Art Kristin G. Congdon, Kara Kelley, Hallmark, 2012-03-19 Folk art is as varied as it is indicative of person and place, informed by innovation and grounded in cultural context. The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays. *American Folk Art: A Regional Reference* offers a collection of fascinating essays on the life and work of 300 individual artists. Some of the men and women profiled in these two volumes are well-known, while others are important practitioners who have yet to receive the notice they merit. Because many of the artists in both categories have a clear identity with their land and culture, the work is organized by geographical region and includes an essay on each region to help make connections visible. There is also an introductory essay on U.S. folk art as a whole. Those writing about folk art to

date tend to view each artist as either traditional or innovative One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits they are grounded in their cultural context and creative in the way they make work their own Such insights expand the study of folk art even as they readjust readers understanding of who folk artists are
