Miracles A Preliminary Study:

Miracles Clive Staples Lewis,1947 *Miracles* C. S. Lewis,2001-02-06 An impeccable inquiry into the proposition that supernatural events can happen in this world C S Lewis uses his remarkable logic to build a solid argument for the existence of divine intervention *Miracles* Junaid Ali,2018-04-21 In a section on The Naturalist and the Supernaturalist Lewis gives specialized definitions to the two terms Naturalists under his definition trust that the Universe is a tremendous procedure in which all occasions which ever happen discover their causes exclusively in the occasions that occurred before them inside the framework Supernaturalists trust that intrusions or impedances can occur in this arrangement of our Universe from some other framework outside it An extraordinary occasion would be one that isn t traceable even on a basic level exclusively to physically decided causes inside our Universe Libertarian unrestrained choice on the off chance that it exists would need to be heavenly under this view **Ad 2036 Is the End** Christian T. Jacobsen,2008-03-31 Did you know that the exact year of Jesus crucifixion was predicted over five hundred years before His birth Did you know that a similar prophecy predicts the exact year of Jesus return to earth In fact the timing of the Second Coming of Christ is foreshadowed in no less than eleven places in the scriptures These timelines all point to the end of human history within this generation Although the Bible teaches that no one knows the day or hour when these things will happen Mark 13 32 it says nothing about not knowing the year Faithful Christians most certainly won t be surprised when the day of the Lord comes 1 Thessalonians 5 4 rather they will see the day approaching Hebrews 10 25 This book reveals that the Glorious Day will occur within three and a half years of AD 2036 CHRIST HAS DIED CHRIST IS RISEN CHRIST WILL COME AGAIN **Miracles** David Basinger,2018-07-26 This Element is a critical overview of the manner in which the concept of miracle is understood and discussed in contemporary analytic philosophy of religion In its most basic sense a miracle is an unusual unexpected observable event brought about by direct divine intervention The focus of this study is on the key conceptual epistemological and theological issues that this definition of the miraculous continues to raise As this topic is of existential as well as theoretical interest to many there is no reason to believe the concept of miracle won t continue to be of ongoing interest to philosophers

Miracle as a Mode of Being Divine Igor Gudyma,2025-11-12 Thousands of years have passed since the idea of miracles appeared in religious consciousness but stories of miraculous powers and apparitions have survived all cultural vicissitudes and continue to excite humanity to this day These are the most amazing stories that humanity has ever heard reproducing the deepest hopes of people as mortals They express the eternal hopes of man to rise above the miserable sides of his own existence despite all the limitations of existence and to live freely according to his destiny The stories presented in the myths scriptures of various religious traditions do not simply excite the imagination knocking it out of its usual rut they significantly change the psychological space of man dedicating him to the deepest secrets of being turning ordinary everyday life into a special world This book describes miracle as a mode of being and the reality of the divine **Miracles** Clive S. Lewis,1972
