Evolución contemporánea del gasto público en España Manuel Jaén García, 2004-01-01 En los años sesenta Musgrave afirmaba que la teoría del crecimiento del gasto público es un tema fascinante pero difícilmente dominable y que incluso considerando solamente los aspectos económicos era difícil formular una teoría aceptable del crecimiento del gasto público Esta afirmación sigue siendo válida hoy y no se ha conseguido una teoría general integradora del crecimiento del Gasto En este libro después de considerar desde un punto de vista descriptivo cual ha sido la evolución cuantitativa y cualitativa del sector público español en los tres últimos decenios se formulan y contrastan diversas teorías explicativas de la evolución del Sector Público La Ley de Wagner o ley del crecimiento secular del gasto público constituye el ejemplo más conspicuo en este campo pues formulada a finales del siglo XVIII ha sido objeto de numerosos análisis y contrastaciones empíricas Esto es debido a una formulación llena de ambigüedades que ha llenado las páginas de la literatura económica de comentarios acerca de lo que realmente quería decir Wagner de cual debe ser la forma en que debe enunciarse y de contrastes empíricos en las más variadas circunstancias Las otras dos teorías que se analizan determinantes desde el lado de la oferta y desde la demanda mezclan factores de tipo económico y político en un intento de síntesis explicativa Aunque pueden llegar a explicar la forma en que se ha producido la evolución del sector público en España el poder predictivo de estas teorías es limitado pues los cambios en el escenario político democracia Unión Europea Maastrich y en el económico con las diversas crisis producidas en los últimos años hacen difícil predecir una evolución a partir de un pasado con cambios tan bruscos Queda en todo caso por formularse un modelo que sea la vez sencillo e integrador y que pueda explicar la evolución del gasto público en una forma inteligible y adecuada La proporcionalidad en América Latina Francisca Pou Giménez, Laura Clérico, Esteban Restrepo Saldarriaga, 2025-10-01 Luego de treinta años de vida democrática resulta indispensable evaluar críticamente cómo se ha

entendido y utilizado el escrutinio de proporcionalidad en América Latina. Mediante el examen o test de proporcionalidad se analiza y valora la legitimidad constitucional de los fines u objetivos que persigue una acción pública o privada y la adecuación, necesidad y estricta proporcionalidad de los medios que se ponen en operación para alcanzar esos fines. Como ponen de relieve las distintas contribuciones que aquí se reúnen, la proporcionalidad se ha convertido en un concepto organizador clave en el derecho constitucional de una región en la que constituciones con objetivos abiertamente transformadores coexisten con un grado de desigualdad social terrible. Este panorama nos exige reflexionar más allá de la proporcionalidad, reconociendo el peso medular de la labor judicial en la construcción de la democracia y el orden social.

**La prueba** Erich Döhring, 2023-12-05. El trabajo del jurista no se limita sólo a mantener vigentes las normas jurídicas, además debe elaborar el estado de los hechos a los que esas normas han de aplicarse. Antes de sondear lo que debe ser, deber constatar lo que es o en su caso lo que ha sido. La ciencia jurídica no es pues puramente normativa. No se agota con la deducción sino que depende asimismo en gran medida del manejo del saber experiencial y del método inductivo propio de este. Por consiguiente hay cierta razón en decir que esclarecer la cuestión de hecho es tan importante como esclarecer la de derecho. En muchos casos incluso determinar los hechos tiene para la terminación del procedimiento una importancia mucho mayor que resolver la cuestión jurídica. Por eso la indagación de los hechos ha llegado a calificarse como una parte esencial de la tarea procesal.

Erich Döhring **Manual de escritura académica y profesional (Vol. I)** Estrella Montolío, 2015-03-24. Elaborar textos correctos, adecuados y que cumplan con eficacia el objetivo para el que fueron diseñados es el resultado de una reflexión sobre un objeto de estudio apasionante, el lenguaje y sobre todo de mucha práctica. Ya se trate de un breve lema publicitario como de un extenso artículo académico, las reglas que aplican son las mismas. Este Manual de escritura académica y profesional se presenta en dos volúmenes y quiere ser precisamente un instrumento para ayudar al lector a convertirse en un escritor experto en el manejo de textos. Busca enseñar las diferentes estrategias y mecanismos lingüísticos que deben conocerse para elaborar textos eficaces desde las reglas básicas de la ortografía, acentuación, puntuación léxica hasta conceptos más complejos como la argumentación, la estructuración o los conectores. El libro lo componen dos volúmenes: uno teórico y otro práctico con ejercicios y solucionario.
