## **Postmetaphysical Thinking:**

*Postmetaphysical Thinking* Jürgen Habermas, 1992 Considers the nature and future of philosophy in a post metaphysical age In the first part Habermas examines the legacy of Kant and assesses some recent attempts to return to metaphysical modes of thought In the second part he develops and defends the concepts of communicative reason *Postmetaphysical Thinking II* Jürgen Habermas, 2017-06-16 There is no alternative to postmetaphysical thinking this statement made by Jürgen Habermas in 1988 has lost none of its relevance Postmetaphysical thinking is in the first place the historical answer to the crisis of metaphysics following Hegel when the central metaphysical figures of thought began to totter under the pressure exerted by social developments and by developments within science As a result philosophy's epistemological privilege was shaken to its core its basic concepts were de-transcendentalized and the primacy of theory over practice was opened to question For good reasons philosophy lost its extraordinary status but as a result it also courted new problems In *Postmetaphysical Thinking II* the sequel to the 1988 volume that bears the same title English translation Polity 1992 Habermas addresses some of these problems The first section of the book deals with the shift in perspective from metaphysical worldviews to the lifeworld the unarticulated meanings and assumptions that accompany everyday thought and action in the mode of background knowledge Habermas analyses the lifeworld as a space of reasons even where language is not yet involved such as for example in gestural communication and rituals In the second section the uneasy relationship between religion and postmetaphysical thinking takes centre stage Habermas picks up where he left off in 1988 when he made the far sighted observation that philosophy even in its postmetaphysical form will be able neither to replace nor to repress religion and explores philosophy's new found interest in religion among other topics The final section includes essays on the role of religion in the political context of a post secular liberal society This volume will be of great interest to students and scholars in philosophy religion and the social sciences and humanities generally **Postmetaphysical Thinking** Jürgen Habermas, 1992 This collection of Habermas's recent essays on philosophical topics continues the analysis begun in *The Philosophical Discourse of Modernity* In a short introductory essay he outlines the sources of twentieth century philosophizing its major themes and the range of current debates The remainder of the essays can be seen as his contribution to these debates Habermas's essay on George Herbert Mead is a focal point of the book In it he sketches a postmetaphysical intersubjective approach to questions of individuation and subjectivity In other essays he develops his distinctive communications theoretic approach to questions of meaning and validity The book as a whole expands on his earlier efforts to define a middle ground between nostalgic revivals of metaphysical conceptions of reason and radical deconstructions of reason Jürgen Habermas is Professor of Philosophy at the University of Frankfurt The Essays *The Horizon of Modernity is Shifting Metaphysics after Kant Themes in Postmetaphysical Thinking Toward a Critique of the Theory of Meaning Peirce and Communication The Unity of Reason in the Diversity of Its Voices Individuation through Socialization On George Herbert*

Mead's Theory of Subjectivity Philosophy and Science as Literature      **Pragmatism as Anti-Authoritarianism** Richard Rorty, 2021-08-17 The last book by the eminent American philosopher and public intellectual Richard Rorty providing the definitive statement of his mature philosophical and political views Richard Rorty's Pragmatism as Anti Authoritarianism is a last statement by one of America's foremost philosophers Here Rorty offers his culminating thoughts on the influential version of pragmatism he began to articulate decades ago in his groundbreaking Philosophy and the Mirror of Nature Marking a new stage in the evolution of his thought Rorty's final masterwork identifies anti authoritarianism as the principal impulse and virtue of pragmatism Anti authoritarianism on this view means acknowledging that our cultural inheritance is always open to revision because no authority exists to ascertain the truth once and for all If we cannot rely on the unshakable certainties of God or nature then all we have left to go on and argue with are the opinions and ideas of our fellow humans The test of these ideas Rorty suggests is relatively simple Do they work Do they produce the peace freedom and happiness we desire To achieve this enlightened pragmatism is not easy though Pragmatism demands trust Pragmatism demands that we think and care about what others think and care about which further requires that we account for others doubts of and objections to our own beliefs After all our own beliefs are as contestable as anyone else's A supple mind who draws on theorists from John Stuart Mill to Annette Baier Rorty nonetheless is always an apostle of the concrete No book offers a more accessible account of Rorty's utopia of pragmatism just as no philosopher has more eloquently challenged the hidebound traditions arrayed against the goals of social justice      The Postsecular Political Philosophy of Jürgen Habermas Dafydd Huw Rees, 2018-09-01 This is the first full length treatment of Habermas postsecular political philosophy in English It gives a much more in depth analysis of this aspect of his work than the comparable books listed above It looks at this issue in the context of Habermas entire philosophical project drawing out hitherto overlooked connections It works as an intermediate level introduction to many aspects of Habermas philosophical project his social theory moral philosophy and metaphysics as well as his political theory and philosophy of religion      Pentecostal Public Theology Simo Freestadius, Mark J. Cartledge, 2024-07-11 This is the first academic work to focus explicitly on Pentecostal public theology in Europe Following a growing interest in understanding Pentecostal beliefs and practices with respect to the public sphere this book shifts the focus of Pentecostal engagement with politics society and culture from the Global South and North America to Europe This work also discusses themes such as Pentecostal public values identity nationalism poverty democracy education race and political engagement in the context of European Pentecostalism The book provides an historical overview by bringing together various European voices to discuss the current challenges and possible trajectories for Pentecostal public theology in a constructive fashion With contributions from leading and emerging European Pentecostal and Charismatic scholars this book is a must for scholars interested in understanding Pentecostal beliefs and practices in the public sphere in a European context      **Postmetaphysical Thinking** Jurgen Habermas, 1995      **G.H. Mead** Filipe Carreira da Silva, 2007-11-05 G H

Mead is rightly considered to be one of sociology's founding fathers yet to date there have been surprisingly few books devoted to his life and work. This book fills the gap by introducing Mead's ideas to a younger generation of social scientists. Beginning with a biographical account of the main events in Mead's career, Filipe Carreira da Silva provides a thorough examination of Mead's social theory of the self, the reception of his ideas into sociology, and the relevance of his work to the contemporary social sciences. He focuses in detail on the core ideas associated with Mead's work, including gesture and the significant symbol, the I-me distinction, and the generalized other, as well as exploring less well-known aspects of his writing. This comprehensive introduction to Mead's thinking will appeal to students across the social sciences, providing a refreshing perspective on the social nature of the individual self.

*Self and Other: Essays in Continental Philosophy of Religion* Eugene Thomas Long, 2007-04-11. The essays in this volume focus on some of the topics that are shaping recent continental philosophy of religion. These primary topics include self and other, evil and suffering, religion and society, and the relation between philosophy and theology. The articles are by an international group of leading contributors to recent continental philosophy of religion.

**Postmetaphysical Thinking** Jürgen Habermas, 2017. *Studies in Philosophy and the History of Philosophy*, 2020.

**Arthur's Dream** Michael Giffin, 1996. Attempts to provide a framework and terminology for accessing the area of Patrick White's spirituality. Uses a structuralist and post-structuralist critical method that looks at the theological implications of modernity and postmodernity. Includes indexes and bibliography. Simultaneously published in hardcover and paperback. Author is a priest in the Anglican Diocese of Sydney and teaches literature and theology at the University of Sydney.

Debating New Social Movements Su H. Lee, 2007. This book is a straightforward exposition of the social theoretical fields and problematic issues relating to contemporary social movements and identities. The issues important to new social movements, identity, culture, diversity, power, and local activism, are examined by providing intelligible connections between the contrasting perspectives of critical theory and postmodern thought. Publisher description from p. 4 of cover.

*Postmodern Gaming* Tilman Kuchler, 1994. This is a substantial contribution to the contemporary theoretical discourse. It draws on the works of Heidegger, Gadamer, Lyotard, Derrida, and others to show the centrality of play for an effective critique of structures of metaphysical thinking. The author argues that it is the notion of play that allows us to understand postmodernity as a project that asserts the need to continue the modern tradition with a truly critical agenda.

**German Politics and Society**, 1994.

**God and Being** Jeff Owen Prudhomme, 1997. Jeff Owen Prudhomme interprets the relation of Heidegger's ontology to theology in terms of a correlation. He develops his inquiry from several different perspectives: a brief overview of Heidegger's thought, an overview of the traditional connections of God and being between ontology and theology, and of the necessity of the connection, an overview of the theological reception of Heidegger's work, and finally a discussion of the current situation in theology. Marked by its deliberate and intelligible approach to a profoundly intricate subject matter, this work engages the philosophical and theological interpreters of Heidegger, those engaged more broadly in these

disciplines in cultural interpretation and anyone whether professional undergraduate or layperson who is stirred by the meaning of being and the question of God Christian Scholar's Review ,2004 Meta-ethics, Moral Objectivity and Law Veronica Rodriguez-Blanco,2004 The book shows the relevance of meta ethical and metaphysical considerations to determine the nature of law and the connection between objective moral and legal judgements The investigation analyses the legal theories of Ronald Dworkin J rgen Habermas and Michael Moore The conclusion of the scrutiny is that the discussed views fail to explain the plausible links between objective moral and legal judgements The lesson to learn from the failure of these philosophical perspectives is that we need to revise fundamental meta ethical conceptions within law In addition to the view that meta ethical and metaphysical considerations play a central role in our understanding of objective moral and legal judgements we enforce the idea that it is necessary to revise our meta ethical and metaphysical premises in jurisprudence Epistemic and meta ethical abstinence in legal theory in this way is challenged by a number of criticisms The outcome of our reflection is that in legal theory as in many other disciplines we need to take truth and objectivity seriously **Christianity & Literature** ,1993 **Yale Journal of Law & the Humanities** ,1999
