Reading Group:

The Reading Group Handbook Rachel W. Jacobsohn, 1998-04-29 Perhaps you are one of the millions who has tuned in and turned on to the hugely popular Oprah's Book Club. And perhaps by watching it you've discovered a new or rekindled an old passion for reading. Now with the guidance of Rachel W. Jacobsohn's revised and updated edition of *The Reading Group Handbook* you too can start your own book club. Book clubs and reading groups give fellow members the chance to break out of established reading patterns and learn adventurous approaches to creative material. With the help of *The Reading Group Handbook* you'll get a definitive step-by-step guide to starting your own book club, written by a professional reading group leader who has organized and led groups face-to-face and even online for over twenty years. In this newly revised and expanded edition you'll get information on where to meet (homes, local bookstores, libraries, and online), how to select members and decide a format for the meetings, how to read material critically and constructively in preparation for the gathering, the art of the discussion, over thirty-five suggested reading lists including an expanded list of year-by-year Pulitzer Prize winners, Oprah's Book Club picks, and personal recommendations from the author and her group members. Where to go to get more information on the books you choose and on book clubs throughout the country. As reading groups have become the latest trend in socializing, anyone who wants to combine a love of literature with the opportunity to meet others will not want to be without *The Reading Group Handbook*. With *The Reading Group Handbook*, readers will enjoy the benefits of a good book and a good book club.

Reading Groups, Libraries and Social Inclusion Eileen Hyder, 2016-04-01 Reading groups have grown rapidly in popularity and continue to be a significant cultural phenomenon. Reading groups in public libraries linked to the learning and social inclusion agenda have expanded to include a wide range of groups within society, including people with visual impairments and VIPs. This under-researched area is the focus of this book. Library-based VIP reading groups are interesting on many levels. Given that these groups predominantly use audio versions of the text rather than print, this links to debates about the changing nature of reading in a multi-modal age. This book discusses whether contemporary society still defines reading as a visual activity or whether technological developments have led to a broadening of the definition of reading. The author goes on to discuss how policy is translated into practice within the library context and whether the wide range of reading groups linked to libraries suggests that libraries understand and are taking the social inclusion agenda seriously. She also explores how effectively libraries are using reading groups as a tool for delivering on the agenda for learning and how this sits within wider priorities for post-compulsory education and lifelong learning. Finally, the book suggests ideas for future development for these groups, outlining ways in which their potential could be maximised for the benefit of both the library and the reading group members. The book will be of great interest to professional librarians as well as students and scholars of librarianship. It will also be of interest to those working on the emerging field of reading groups in literary studies. Those interested in the role of reading in education as well as disability scholars will also find the book useful.
