Marginal Migrants:

American Immigration Policy Steven G. Koven, Frank Götzke, 2010-08-09 Collaboration can be a painful process especially between authors of different disciplines This book is an outgrowth of discussions between a Political Scientist and Economists at the School of Urban and Public Affairs University of Louisville The Economics perspective is found in Chapter 3 and was largely written by Frank Götzke The Political Science oriented review Chapters 2 and 6 as well as all the case studies were largely provided by Steven Koven Most of the book but especially Chapters 4 5 and 7 evolved as a consequence of conversations between the two authors We believe the product of two disciplinary approaches has produced a collective outcome that is greater than the sum of individual parts would have been In this book we have attempted to combine the analytical empirical historical political and economics approaches Chapter 3 presents an analytical model based on economics Chapters 4 and 5 summarize empirical census data related to immigrants and Chapter 6 reviews the legislative and political history of immigration

The Rights of Immigrant Workers in the European Union Joanna Apap, 2002-09-01 This book is one of the very few studies that evaluates the evolving policies towards third country nationals residing and working in the European Union EU Other studies have analysed the existing legal framework of citizenship and migrants rights in the EU and the flow of migrants into the Community However much less comparative research has been carried out about the actual position and the practice of migrants rights in the receiving countries in the context of an ever integrating EU and the removal of internal borders The focus of this book is on the consequences of the increasing number of Maghreb workers residing in Italy and Spain both for EU policy and with respect to these two countries as relatively new receiving states The book examines What public policy implications does the labour immigration from the Maghreb Countries have for the EU as a supranational Community rather than for the Member states individually To what extent can citizenship rights be extended to third country nationals legally residing in a European Union to make their status as close as possible to that of European citizens

The Workers' State Meets the Market Sarah Cook, Margaret Maurer-Fazio, 2013-10-23 Among the most dramatic changes to affect China in the 1990s is the upsurge in labour mobility and the emergence of a market driven system of labour allocation changes which profoundly affect the working environment and livelihoods of the Chinese people Papers in this collection draw on a wide variety of data sources to analyse key elements of this transformation

Diversity and Disparities John Logan, 2014-11-01 The United States is more diverse than ever before Increased immigration has added to a vibrant cultural fabric and women and minorities have made significant strides in overcoming overt discrimination At the same time economic inequality has increased significantly in recent decades and the Great Recession substantially weakened
