Mark Lewis Films 1995-2000:

Mark Lewis Films 1995-2000 Mark Lewis, 2000 Mark Lewis work functions as a critique of cinema encouraging the viewer's awareness of the clichés, conventions and fragmentary nature of film and how it has been constructed historically. In so doing he also acknowledges its suggestive power and the alluring, seductive visual qualities of the medium whilst maintaining a certain critical distance in his extraction and re-evaluation of its components. This catalogue provides a survey of Lewis' film works from 1995-2000.

The Past is the Present; It's the Future Too Christine Ross, 2012-06-28. Offers a comprehensive understanding of contemporary media arts and articulates a closer link between present, past and future.

Mark Lewis Michael Rush, Philippe-Alain Michaud, Laura Mulvey, 2006. Mark Lewis's films are remarkable not only for their rich and highly seductive use of light and color but also for the way in which they pay homage to both classic Hollywood cinema and the avant-garde while remaining outside of both traditions. Mark Lewis is the first book to explore this acclaimed Canadian's art and it features images from several of his works including his most recent piece *Rear Projection*. This film in particular documents a significant shift in Lewis's practice. Actress Molly Parker, known for her roles in *Six Feet Under* and *Deadwood*, is superimposed against the bleak landscape of rural Ontario using the standard Hollywood technique of rear projection. Lewis takes what was for old Hollywood a tool meant to convey seamless realism and foregrounds its essential trickery. Another piece incorporates the dreary backdrops of concrete council flats in the same way. In both settings the film takes on a painterly quality, referencing and restaging traditional portraiture to startling effect. Accompanied by essays by Philippe-Alain Michaud, Laura Mulvey and Michael Rush that place Lewis's work next to that of his contemporaries, Mark Lewis reaches insightful conclusions about the evolving relationship between film, technology, painting and photography.

The People's Pictures James Caterer, 2011-08-08. When John Major launched the UK's National Lottery in 1994 he christened it the people's Lottery and handed it to the mythical stewardship of the Everyman. But when the proceeds began to be distributed to worthy causes including the British film industry, this populist rhetoric came under increasing strain. If Lottery funding is used to produce the type of British films which the public want to see, such as romantic comedies, then many question whether the market deserves such subsidy. Short films and low-budget experimental cinema, which often require state support, tend to go unwatched by large swathes of the Lottery ticket-buying public. This book explores the debates which were sparked by the arrival of the people's pictures and places them in historical context by examining their many precedents. Is public patronage a boon or a burden for filmmakers? And how do institutional cultures or political buzzwords affect the finished films? Case studies include the popular hits *Billy Elliot* (2000) and *Shooting Fish* (1997), art-house releases such as *Love Is The Devil* (1998) and *Gallivant* (1997), short films by
