

CHAPTER 4: THE MARKET FORCE OF DEMAND AND SUPPLY

1. Consider the market for minivans. For each of the event listed here, identify which of the determinants of demand or supply are affected. Also indicate whether demand or supply increases or decreases. Then draw diagram to show the effect on the price and quantity of minivans.

a. *People decide to have more children*

If people decide to have more children, they will want larger vehicles for driving their kids around, so the demand for minivans will increase. Supply will not be affected, the demand curve shift to the right. As the result, both the price and the quantity sold of minivan increase

b. *A strike by steelworkers rises steel price*

If a strike by steelwork the supply of minivans decreases. Demand will not be affected, the supply curve shifts to the left. The result is a rise in the price of minivans and a decline in the quantity sold of minivans.
