Marital Puzzle:

Action Modality Couples Therapy Joyce Ann Hayden-Seman, 1998 Action modality couples therapy addresses the question of what to do in a couples session Dr Joyce Ann Hayden-Seman takes psychodramatic techniques that have long been used successfully in group therapy and shows how to apply them to helping troubled relationships Among the tools provided by action modality therapy are role diagrams which offer therapists a simple concrete means of identifying and resolving relationship blocks assessment tools which allow the charting of progress throughout the treatment process and self supervision tools offering the clinician a way of both managing progress inhibiting countertransference and building new treatment skills Clinical vignettes as well as detailed session transcripts make this interesting reading for any therapist searching for a new approach to couples therapy

One Couple, Four Realities Richard Chasin, Henry Grunebaum, Margaret Herzig, 1992-03-01 An outgrowth of an Harvard Medical School Couple Therapy Conference this is the first book on couple and family therapy to combine a range of clinical theories with a single case discussion At the conference Jim Framo Peggy Papp Norman Paul and Carlos Sluzki therapists well known for their differing styles and theoretical persuasions described and explained the sessions they each conducted with the same couple These sessions varied greatly each has a distinctive focus two included family of origin members one involved a co therapist Later other therapists representing an even broader range of perspectives discussed their viewpoints and speculated how they might have approached the same case In **ONE COUPLE FOUR REALITIES MULTIPLE PERSPECTIVES ON COUPLE THERAPY** the experience of attending this conference is recreated and expanded The reader is first given the same background information about the couple that was supplied to the interviewers and is then presented with edited transcripts and commentary by Framo Papp Paul and Sluzki about their own sessions Further perspectives and approaches to the case are provided by a number of other teachers of therapy Thus the reader is invited to view the couple from over a dozen different perspectives including psychodynamic object relations systemic behavioral feminist contextual and eclectic orientations Perhaps the most fascinating perspective is provided by the couple Larry and Jennifer who in the last section of the book detail their reactions to the four demonstration sessions Their stunningly candid and intelligent accounts given soon after the original interviews and then again six years later provide a compelling conclusion to the book Most published cases are selected retrospectively to illustrate the power of the author's approach By contrast this couple was selected in advance their case ongoing at the time in a Boston clinic seemed suitable for the demonstration interviews to be videotaped for the Harvard conference The couple was bright and engaging They and their families of origin were willing to participate The interviewers agreed to document the sessions no matter how they turned out This prospective method of case selection lent authenticity to the interviews permitting the viewers and now the reader to witness clinical work as it might unfold in the office of any therapist This volume is not intended to and does not demonstrate the superiority of one approach over another Each of the four demonstration interviews represents careful

conscientious work and each leads to a different reality about the couple Only in a volume such as this can one see in high relief what each approach brings to light and what each obscures All therapists interested in couples should find this book useful as it stimulates readers to scrutinize their own theories and practices consider how they might have approached Larry and Jennifer and ponder what their own viewpoint may have caused them to overlook Clinicians will appreciate the theoretical discussions and case analyses The book is a natural supplemental text for courses in couple or family therapy Teachers may learn much from the appendix which addresses ethical and therapeutic aspects of using videotaped demonstration interviews important issues that have been neglected in the professional literature The book may also have personal resonance for non professionals interested in exploring the complexity of one couple s relationship All will find ONE COUPLE FOUR REALITIES accessible and thought provoking Through the lives of Larry and Jennifer it addresses timeless and timely questions about the personal familial and cultural forces that create shape and strain the bonds that hold couples together

Case Studies in Couple and Family Therapy Frank M. Dattilio, 2017-02-13 Featuring case presentations by many of the most distinguished practitioners of couple and family therapy this volume brings to life the full spectrum of approaches in the field The cases illustrate the principles and techniques of the respective approaches and allow the reader to listen in on highly skilled therapists at work Editor Frank Dattilio comments on each case with a focus on ways to integrate systemic and cognitive behavioral approaches He suggests ways that cognitive principles might usefully be called upon at specific points Responses from contributors consider the benefits of Dattilio s suggestions and elucidate each practitioner s decision making process See also Dattilio s authored book *Cognitive Behavioral Therapy with Couples and Families* which combines the empirical research base with practical clinical guidance

Marriage Enrichment Richard A. Hunt, Larry Hof, Rita DeMaria, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory

Developments in Family Therapy (Psychology Revivals) Sue Walrond-Skinner, 2014-01-09 Originally published in 1981 this volume presents papers by the leading British theorists and practitioners in family therapy from its beginnings up to the 1980s It collected together for the first time a number of important previously published articles which had relevance and interest for family therapists of the day and includes other chapters specially written for this book which reflected the most recent thinking on the topics covered at the time The book is divided into three parts The first which includes papers by John Bowlby R D Laing and A C R Skynner deals with the theory behind family therapy In the second part we see the application of family therapy to specific clinical situations such as adolescent psychiatry illness death and mourning in the family and marital therapy The third part of the book covers various differential approaches within family therapy including psychoanalysis the experiential approach and family construct psychology The papers in all three parts weld together ideas from the behavioural and the psychodynamic spheres of interest Addressed as they are to

theoretical issues and clinical applications they linked together the past and future of family therapy at that time **Concise Guide to Marital and Family Therapy** Leslie B. Kadis, Ruth McClendon, 1998 Presents both the theoretical and practical cornerstones of relationship therapy that help therapists move a family or couple toward healing This guide focuses on therapy with families and couples the field of marital and family therapy MFT This therapeutic approach is about changing relationships through changing the interactions among the people who make up the family or marital unit *Explorations in Marital and Family Therapy* James L. Framo, 1982 Counseling in Marital and Sexual Problems Robert F. Stahmann, William J. Hiebert, 1984 My Journey to Rediscover Relationships Johnie Hinson, 2018-01-12 Johnie Hinson's journey to rediscover relationships took him to a new level in his understanding of relationship dynamics The Lord opened a door of opportunity allowing Johnie to glean precious knowledge about the greatest gift He gave to humanity The Lord's revelations provided keen insight into how He views relationships and His expectations of how Johnie should approach them The first revelation or divine insight Johnie discusses in his book reveals the significance of our connections Life is all about relationships and relationships are all about life Johnie discovered that nothing in life promotes greater satisfaction than meaningful connections with family friends and the Lord who made life possible As a result Johnie chose to make his relationships a priority Johnie's journey also provided him with a greater understanding of marriage and his role in the home He learned that marriage isn't a contract between a man and a woman but a covenant designed to connect them in a lifelong union Johnie is constantly reminded by the Lord that Your marriage isn't about you it's about what you promised in your vows Although a painful reality the author is learning that fulfilling his promise to his wife Rene is the only way to make their house a home Johnie chose to become her husband now he chooses to fulfill his responsibilities Johnie is convinced that life is a journey and if he intends to enjoy the ride vertical and horizontal connections will play a significant role As a minister serving the Lord for 47 years and traveling around the globe I can attest that everything rises and falls on relationships As a minister military officer husband and father Johnie Hinson's story can teach us a lifetime of lessons about relationships that we can all learn from I highly recommend this book to you Rev Dr Paul Ai President Vietnamese Outreach International Bishop Overseer Vietnamese Harvest Network Klemer's Counseling in Marital and Sexual Problems Richard H.
